

Installation Policy:

1. THREE INSTALLATIONS are allowed with the purchase of each program. Each installation will generate a NEW, UNIQUE Registration Number and will require a different, unique UNLOCK KEY CODE as described on Page 2 & 3 of the HIC or SOAP Instruction Manuals.
2. An INSTALLATION MAY BE REMOVED from a computer using the "Registration Removal Procedure" below. After the Procedure is completed and the "Removal Code" is emailed or faxed, the "Registration Number" is no longer counted as one of the three installations. THIS IS THE ONLY METHOD BY WHICH A REGISTRATION NUMBER IS NOT COUNTED AS ONE OF THE THREE.

Registration Removal Procedure:

1. Navigate to the Utilities\Remove Registration tab on the program and press the 'Remove Registration' button. For more details refer to the program manual page 32.
2. Print out the Remove Registration Report that is generated.
3. Send the "Registration Number removed" and the "Removal Code" to holladay@docholladay.com or fax to 713-669-9153.
4. We will send you a confirmation that this "Registration Number" has been removed and is no longer considered one of your three active "Registration Numbers".
